ACOS Accredited

Yes

Year data collection started:

1984

Number of analytic cases in 2010:

1141 and 196 non-analytic – total 1337 (COC 3 and cases only seen at the Riverside Oncology Clinic)

Other information about this registry:

Beginning with June 2011, our registry is responsible for abstracting Hudson, Westfields(New Richmond), Amery, Baldwin, Osceola & St. Croix Falls. We have access through Epic to Hudson & Westfields and will soon have remote access to St. Croix Falls. Amery, Baldwin, Osceola are still in process of converting to an EMR. We should have access to Amery mid summer of 2012.

The majority of time we work from home so e-mail is probably the best mode of communication.
